## QUESTIONS & DETERMINACY

Pertaining to the AGORA, asking solely about the opus is unrewarding.

Important and expressive as an opus may be, it invariably represents the person who created it.

It is a comprimate of the creative person 's state of mind.

Therefore, asking about the person is of much greater significance in this context:

The question about you - about me - about us.

It - this question - is the basis of all communication.
